

The Bible, easy to read

A free Bible app for every Christian tradition, made for anyone who finds the Bible hard going. No account, no ads, no streaks.

WHY IT MATTERS NOW

25%

of U.S. adults read the Bible on their own at least weekly in 2026; 62% read it less than once a year, or never.¹

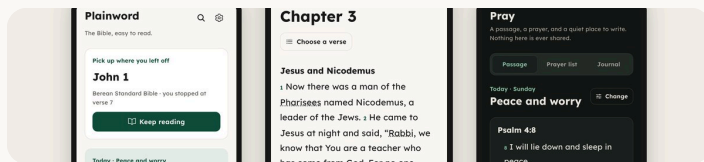

46%

of weekly churchgoers aren't regularly engaging with Scripture on their own. Their reasons: not enough time, and not knowing where to start.¹

28%

of U.S. working-age adults scored at the lowest literacy level in 2023, up from 19% in 2017.²

FOR READERS

Easy to read. The Lexend font, large type, three line spacings, light, sepia and dark pages, and a reading ruler.

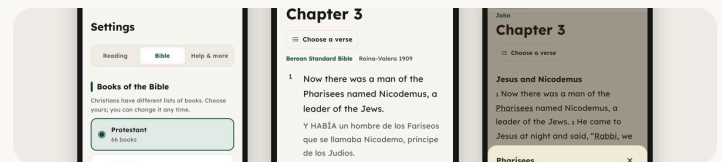

Plain meanings. Tap a dotted word for one of 329 short explanations of hard and old words, places, coins and measures.

Read aloud. The device's own voice reads verse by verse and lights up each word as it goes.

Prayer and passages. Pick topics like Peace and worry or Grief and loss for a passage and short prayer each day, week or month.

No pressure. Reading plans with no dates. No streaks, no leaderboards, no messaging.

FOR EVERY TRADITION

Seven Bibles. Berean Standard, Basic English, World English, King James, Douay-Rheims, Young's Literal and the Spanish Reina-Valera 1909.

Your book list. Protestant (66 books), Catholic (73), or every book, including those some Orthodox Bibles have.

Translation notes. 32 notes on verses where Bibles or scholars differ: facts and sources, no side taken.

Private. No account, no ads, no trackers. Highlights, notes and prayers stay with the reader; we never receive them.

For everyone. WCAG 2.1 AA testing under way. A free backup file moves everything to a new device.

FREE AND PLUS

Plus is free for everyone during the beta. Planned prices, through the App Store and Google Play.

Plainword

Free

Every Bible, read-aloud, plain meanings, translation notes, 3 prayer topics, the free plans and backups.

Plus

\$29.99/yr
